

# STORIES!

## WEEK 2

PRESCHOOL-5TH  
GRADE:

TRACY KIRABO

DATE: 4/18/21

Childcare Worldwide connects sponsors with children through Christ-based Life Centers. With sponsors and Life Centers removing barriers, children grow spiritually and physically into thriving productive adults.

### STORY!

- Tracy lives in an area called Luwero in Uganda. One of her favorite activities is playing with dolls. What's your favorite activity? Tracy helps work around the house, and a typical meal she eats is called Posho and Beans. One of Tracy's dreams is to receive an education and graduate from school. A couple of years ago, Tracy found out that her sponsor could no longer continue supporting her. Sponsorship is vital because a sponsor helps support Tracy so that she can attend a Life Center (which is similar to Sunday School) and receive essential basic needs. It also helps to provide for her education, which would allow her to accomplish her dreams of graduating from school.

This year Tracy experienced many changes in her life similar to you. Schools closed down, families lost work, and there were many unknowns. Thankfully, because Tracy is a part of Childcare Worldwide's program, she received essential items to keep her safe and protect her from Covid. Some of these things included masks and soap to keep her clean and healthy. Tracy also received bible lessons to help her remember that God loves her and cares for her.

Please pray for Tracy. That she would know how much God loves her. That he would provide a sponsor for her soon so she can continue to receive the support she needs and that God would watch over her life.

### ANSWERS AND NOTES:

### QUESTIONS:

- What is one thing you learned from Tracy's story?
- What is Childcare Worldwide?
- How do you think Tracy felt when she lost her sponsorship?

### Activity: Tracy's Dolls

- We will be making very small dolls like Tracy likes to play with. What other toys do you like to play with? Do you play with a doll or a stuffed animal?
- These little dolls are just a little reminder for us that kids in many countries make their toys. You can decorate your doll with markers or add fabric, yarn, eyes, glitter or whatever you like!
