### THINK!

- These last few weeks, we have been talking about stories. Stories in the Bible and stories in real life! We had Childcare Worldwide share two stories of kids getting care and we got to learn a little about their lives.  
- Places like Childcare Worldwide are so important because they are taking care of God's children and helping share the story of Jesus.  
- And there are still ways we can all help after this series is over! There are 300 kids that need sponsors in the countries that Childcare Worldwide works in. Along with the offering cups from week 3, sponsoring one of these kids is a great way to be active in the mission of God!

### QUESTIONS:

- What was your favorite story that you heard in this series?
- Why do you think that was your favorite?
- What did you learn about the two children we learned about?
- After reading these stories, why do you think missions and stories are important?

### Activity: Game List!

- In our homes there are many different ways we play games with our friends and families. We play board games, video games, organized team games and other outdoor games. Some of the stories we have heard in this series were about kids that only have outdoor games as their game choice. Since it is just about summer we thought it would be fun for your family to have a list of outdoor games you can play together this summer and hopefully with friends as well.
